

The new generation roof rack system

whispbar™

Inspired by nature

Perfected by science

SMART-FOOT™ DESIGN ADAPTS TO FIT ALMOST ANY VEHICLE*

*WHISPBAR FLUSH BAR MODEL *ADDITIONAL PARTS REQUIRED*

Introducing Whipbar, the ingenious new roof rack system. Whipbar's innovative Smart-Foot™ and wing-shaped bar are the result of more than ten years of research into automotive design and aerodynamics. Plus Whipbar is the first roof rack to feature, a breakthrough technology that radically reduces roof rack noise and drag.

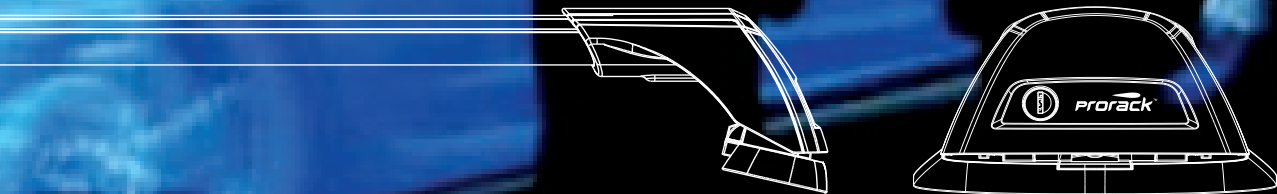

WING-SHAPED BAR REDUCES WIND NOISE AND DRAG

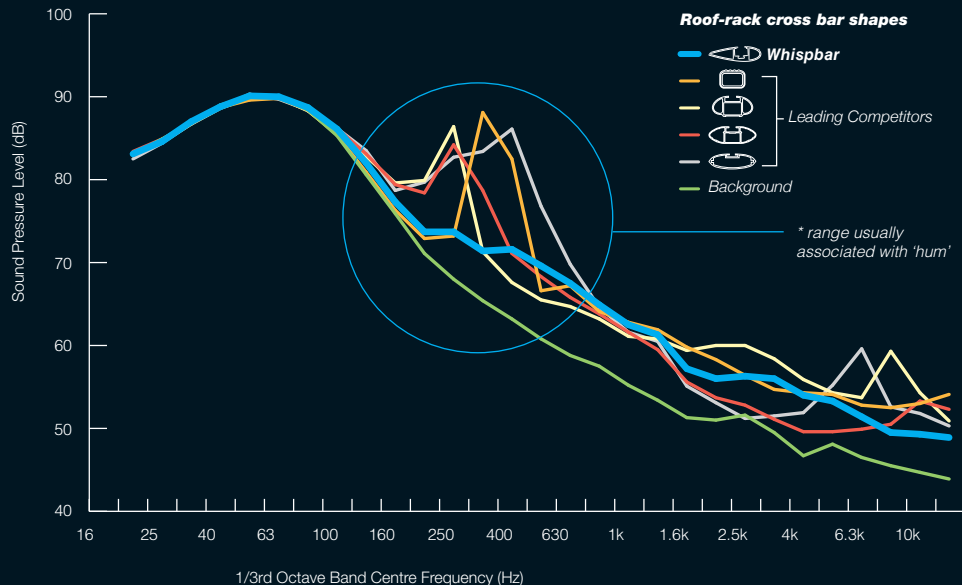

WHISPBAR THROUGH BAR MODEL

QUIETLY SAVES FUEL

WIND NOISE TESTING COMPARISON AUTOMOTIVE ROOF-RACK BARS AT 108 KM/H

Whispbar is the first roof rack to feature, an innovative noise reducing technology that significantly reduces the noise caused by air flowing over a roof rack. The wing shaped design prevents the generation of the annoying hum usually associated with roof racks, making Whispbar whisper quiet. The aerodynamic shape also reduces wind drag – proprietary testing on unloaded crossbar sections show the Whispbar has 40 to 70% less drag than leading competitors' roof racks; which just quietly, can help save fuel.

**TOMORROW
WHISPBAR + NEW
FITTING KIT**

Should you buy a new car in the future, Whipbar reinstalls for half the cost, or less, of buying a new roof rack system – just select the right fitting kit for your car.

See the Prorack Product Guide to select the parts you need.

FLUSH OR THROUGH BAR - YOUR CHOICE!

WHISPBAR THROUGH BAR MODEL

WHISPBAR FLUSH BAR MODEL

CHOICE BAR!

Whispbar is the only roof rack system that lets you select the crossbar style you prefer – either flush or through. The European-style through crossbar extends out over the mounting foot to accommodate wide or larger loads. The flush crossbar is ideal for those looking for a more streamlined, 'factory-fitted' look. It's just one more way Whispbar adapts to your needs.

WHISPBAR FLUSH BAR

Removable:	Yes (Permanent mount also available)
Lockable:	Yes – as standard
Fitting kit needed:	Yes (refer to your Whispbar dealer)
Load rating:	75kg (max) per pair*
